

JEWELS BY PREETI

JewelsbyPreeti brings its latest Solitaire collection called ESTRELLA. Crafted by passion and inspired by beauty. Estrella as name suggests like a shining star, when assembled together, giving that perfect mesmerizing appeal. JBP dwells on using traditional concepts with modern aesthetics and outlook.

To bring best to our client, we get them certified jewellery by reputed body like IGI or GIA and we make sure that our clients get best value for their money including the certification. We would suggest anyone who buys solitaire, please make sure the number in the certificate matches the number inscribed on the girdle of the solitaire.

To create this exquisite collection the precious gems are expertly selected and set in splendid jewels, crafted by master artisans and goldsmiths. As jewellery designer, Preeti Jain of JBP says, "Our latest collection is a beautiful amalgamation of aesthetic designs with different shaped solitaire diamonds and the jewellery is very light in weight too."
